SAMUEL LE NENES

M2 ECAP student
(Applied Econometrics)

4-MONTH INTERNSHIP, MARCH TO JUNE 2027

PROFILE

I am a Master's student in Applied Econometrics (ECAP) at IAE Nantes, specialising in the analysis of economic data with statistical and computing tools. My goal is to become a data scientist or an econometrician, combining my skills in economics, analysis and programming. After a first M1 in corporate finance (CAEGR), I moved into econometrics. My two internships in the finance department at WithSecure taught me to produce reliable analyses that other teams build on.

PROFESSIONAL EXPERIENCE

SEPTEMBER 2023 - JUNE 2026

FB – ATLANTIS

Crew member, alongside my studies

- Kitchen order preparation, dishwashing, cleaning of work areas and the dining room, customer service and checkout, in line with hygiene and quality standards.

APRIL 2025 - JUNE 2025

WITHSECURE – HELSINKI

Intern in the finance department

- Contributed to the sale of the consulting business (building presentations), improved the methods used to calculate greenhouse gas emissions under the CSRD, and handled customer payment reminders.

JANUARY 2024 - FEBRUARY 2024

WITHSECURE – HELSINKI

Intern in the finance department

- Managed and validated customer data (Salesforce), carried out financial analyses (OPEX, revenue, order intake), proofread the 2023 annual report and checked the Investor Relations website.
